A UNIQUE DEBTORS INSURANCE PRODUCT THAT WILL 'DE-STRESS' FINANCIAL DIRECTORS

Your company, like most others, probably has a number of debtors regarded as 'strategic accounts'. And chances are that the 'Pareto Principle' also applies to your debtor's book - on average, 20% of debtors account for 80% of turnover.

Naturally, the impact on cash flow would be disastrous if one of those debtors were to go out of business, leaving your company with a huge unpaid debt.

Credit Guarantee has a solution which caters specifically for this type of calamity: 'TOP TIER COVER'

WHAT TOP TIER COVER IS ABOUT
